**hiking  
&  
exploring**

One of my favourite pasttimes is finding new trails close to me and going hiking with my friends and family. I find these walks to be relaxing as well as refreshing - a break from the screens we are usually surrounded.

**travel**

From the rain that falls from the sky to the fish that swim at the bottom of the ocean, I have always been super fascinated with the world around me. With that being said, all I could ask for in this lifetime is to experience it all.

I have been fortunate enough to have travelled with my family and continue to check of countries we have seen. I am very thankful for each opportunity and am excited to see where else we will see next.

**friends  
&  
family**

I have been blessed with some incredible people in my life and I could not be anymore thankful. This makes spending time with them very enjoyable and another one of my favourite pastimes.

## ABOUT ME

Approaching the finale of my undergraduate studies at Western University and Fanshawe College in the Interactive Media Design joint program, I continuously seek new challenges and opportunities. I am a creative individual who seeks outlets to showcase my talent. Whether these be in and around my two postsecondary campuses or external to school, I am eager to see what experiences I have in store.
